Unit 3

Let's draw by computer 32

Unit 1

Computer in
our life4

Unit 2

Final Project..... 59

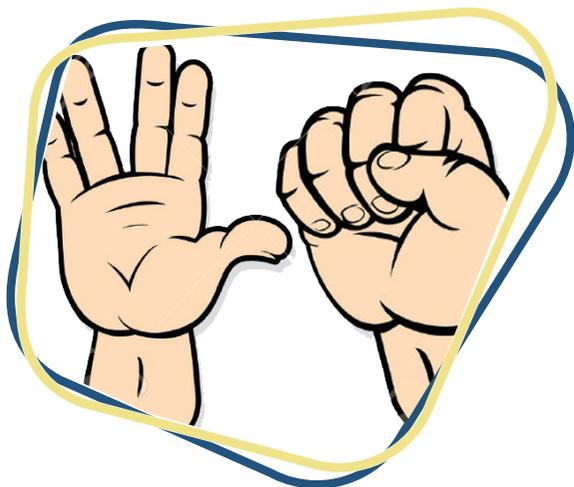

Basics of Windows 8.1.....14

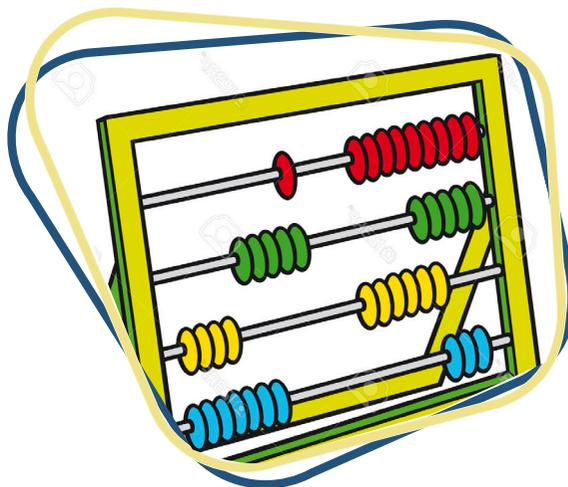

Computer from past to present

I need to calculate faster.

Use your hands.

Use abacus, It was the first idea of a computer.

Oh. What a big, heavy computer, but It is not faster.

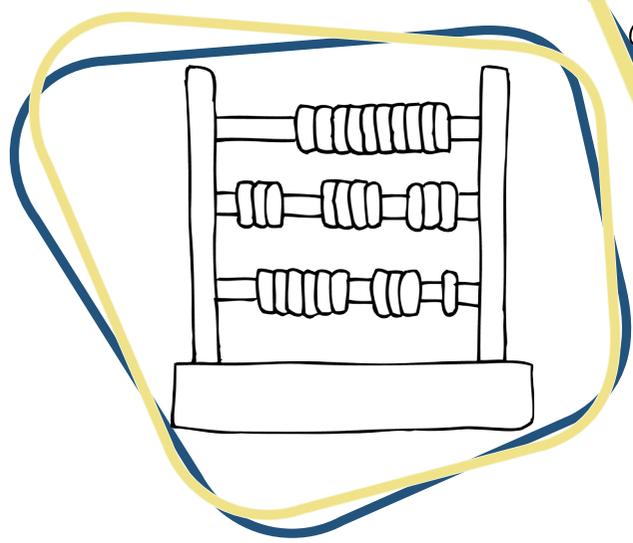

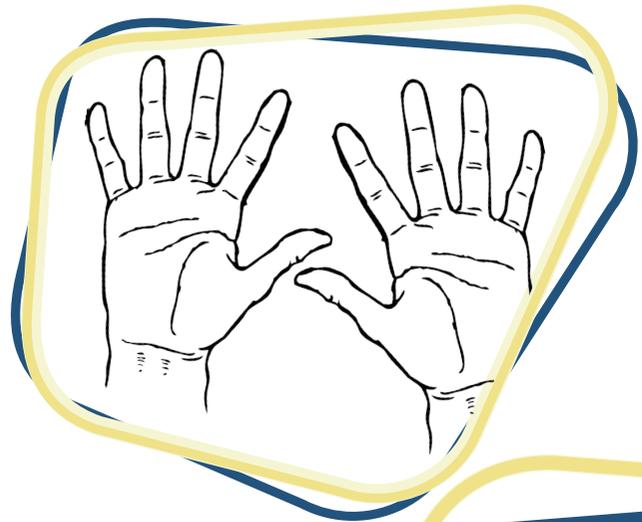

Oh. What a nice computer It is small and fast.

Task

1

Colour the best one we can use to make difficult calculations.

Computer and our needs

All machines are computerized.

Task

Circle around all computerized machines.

Hospital

Company

School

Bank

Car

Computer at home

I have a computer at home.
